FE River & Ocean Subject Specific Curriculum Overview

The intention of the curriculum within the FE department is that of supporting a smooth transition into the adult world that awaits them beyond their time in school. The curriculum is underpinned by the development of lifelong skills whilst maintaining an unambiguous focus on promoting the rights, choices and responsibilities available to students in this age range.

The Curriculum, Planning, Assessment, Reporting and Recording Policy (CPARR - FE) provides extensive information and detail about curriculum design, intent, implementation and impact. All aspects of the school day are planned for and documents can be found in the class **Planning File. The Curriculum Guide and Pupil's Learning Maps s**upport teachers with short term lesson planning. Teacher's use the schools short term planning template which details learning outcomes and activities. This document provides an 'at a glance' view of the curriculum. **Faculty Guides and Curriculum Mapping provides further detail to support teachers' planning.**

The layers of consideration when planning for learning.
